

Appl. No.: 10/527,341

REMARKS

Claim 11 has been amended above. Although one of the through-holes of the multi-terminal seal could be sized and shaped to receive a portion of an electrical terminal, there is no need for this limitation in the claim. In fact, Fig. 2 shows an embodiment in which the multi-terminal seal does not have a portion of the electrical terminal in one of its through-holes. Therefore, the amendment has been made above to remove the limitation from claim 11.

Favorable reconsideration and allowance is respectfully requested. Should any unresolved issue remain, the examiner is invited to call applicant's attorney at the telephone number indicated below.

Respectfully submitted,
